CARBON CURLERS LOSE AT TROCHU

Two rinks journeyed to Trochu on Tuesday evening to compete with the Trochu curlers for the MacDonald cup, but they proved too strong for the Carbon aggregation, who were unsuccessful in their attempt. Trochu winning thirteen points up. Fairbairn lost to Saddler of Trochu 19-9 and McGregor lost to Findlay of Trochu, 15-12.

The following were the players from Carbon: Greenan, McKibbin, Malton Fairbairn, Skip, Carney, Skerry, Reid and McGregor, skip.

OLD TIMERS CELEBRATION THURSDAY, JANUARY 31st.

The date of the Carbon old timers Celebration has been set for Thursday evening, January 31, and arrangements are being made to have one of the best entertainments for the members that evening. Only persons who were in the Carbon district prior to January 1, 1908 are eligible as Old Timers, and their children, if born before that date. The program for the evening will consist of a whist drive and old time dances.

MUSICAL ECKARDTS PLEASED LARGE AUDIENCE IN CARBON

An old-time show which never loses its appeal to audiences throughout the west is the Musical Eckardts. Each year, in addition to their regular program of popular numbers, they present new features which always please.

On Tuesday evening the Musical Eckardts played to a good house at the Farmers Exchange hall. Their program consisted of instrumental numbers, songs, dances, humorous sketches. Bernard Eckardt merits a special praise for his novel instrumental numbers while Miss Irene Murray in song and dance repertoire, made a decided hit. Mr. Gordon Eckardt evoked much laughter from the audience with his witty impersonations and amusing monologues.

The Swiss bell ringing is one of the high spots of this vaudeville entertainment. The Musical Eckardts have been travelling through the west for the past thirty-two years. Three years ago the founder of this troupe passed away and since that time the company has been under the management of his two sons.

TRACTOR SCHOOL IN CARBON

The Hart-Parr Alberta, Limited have announced that they will hold a tractor school in the Farmers Exchange hall, Carbon, on Wednesday, January 30, commencing at 9.30 a.m. sharp.

The program will be in charge of representatives of the Hart-Parr Co. and several reels of film will be shown in connection with lectures, etc., along with actual demonstrations on how to make repairs and adjustments. Every one is welcome to attend this class and this will be a good opportunity for farmers to get some useful information on tractors and their upkeep.

TENDERS FOR WELL

Sealed tenders for the drilling of a well to take six inch casing, at Roseview School, will be received by R. M. Gibson, Chairman, Phone 406 Swalwell, up till noon, Feb. 1, 1929.

The lowest or any tender not necessarily accepted.

MRS. O. M. HUNTER,

Secretary-Treasurer

CARBON BONSPIEL TO BE HELD JANUARY 29, 30 and 31

The Carbon Bonspiel will be held in the Carbon Curling rink next Tuesday, Wednesday and Thursday, January 29, 30 and 31. The weather is cold and the ice at the rink is in good condition and it is expected that some real curling games will take place on these dates. Rinks from Drumheller, Acme, Swalwell and other near by towns are expected to compete at the bonspiel and these entrants are reminded that their entry should be made immediately so that the draws, etc., can be arranged accordingly.

THE SUNBEAM TEA IN THE FARMERS EXCHANGE AALL

Twelve little Sunbeams welcome you To tea in the Farmers Exchange. Just keep that date for them, now do. Oh, won't you please arrange.

Next Saturday at three P.M. These dancing sunbeams fair Want all you folks to tea with them, (We include, of course, the Mayor)

But you must bring a dime and a quarter Which to Mission Fields is given And they'll serve TEA, not colored water. You'll sure think you're in Heaven.

These Sunbeams are twelve girls, you see Who go to Carbon school. And if with them you won't take tea, You're just a darned old mule.

CARTER'S LITTLE PILLS

This Paraly Vegetable Pill will move the bowels without any pain and depressing after effects. Sick Headache, Indigestion, Biliousness, Bad Complexion quickly vanish. Children and Adults can easily swallow Dr. Carter's tiny, sugar coated pills. They are free from calomel and poisonous drugs. All Druggists 25c and 75c red pkgs.

WORLD HAPPENINGS BRIEFLY TOLD

The Kellogg anti-war treaty has been ratified by the Senate at Washington.

An increase of \$25,000,000 in the fund for prohibition enforcement has been approved by the U. S. appropriations committee.

Captain Hermann Koehl, pilot of the first westward trans-Atlantic airplane, Bremen, was injured at Arosa, Switzerland, when he crashed while skiing.

American "Friends of the Prince of Wales" have come forward with an anonymous gift of \$100,000 for the relief of distress in the coal fields, it was announced in London.

It is understood the salary of Sir Basil Blackett, newly appointed chairman of the merger company controlling Imperial wireless and cable communication will be \$10,000 a year.

A fund opened by a Toronto newspaper for relief of the unemployed of Great Britain reached a total of \$28,994. The money was sent to swell the Lord Mayor's fund being raised throughout Britain.

THOUSANDS OF MOTHERS USE NO OTHER MEDICINE

Baby's Own Tablets Are the Ideal Remedy For Babies and Young Children

Canadian mothers are noted for the care they give their little ones—the health of the baby is most jealously guarded and the mother is always on the lookout for a remedy which is efficient and at the same time absolutely safe. Thousands of mothers have found such a remedy in Baby's Own Tablets and many of them use nothing else for the ailments of their little ones. Among them is Mrs. Howard King, of Truro, N.S., who says: "I can strongly recommend Baby's Own Tablets to mothers of young children as I know of nothing to equal them for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Modern Books Short Lived

The life of modern books is much too short. When a good novel comes out it has its time of triumph, which seldom lasts beyond a year. After that it falls out of discussion, and instead of regiments of readers there are none at all. In July 200,000 people may be seeking a book and talking about it, and even reading it, and then with the first frost the matter is dropped entirely. When a popular success begins to decline it falls faster than an aboriginal.

The Friend Of All Sufferers. Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

Disgraced Patron (clavering cine-mat): "I've never seen a rottener picture!"

Commissionaire: "Ever had yer photo took?"

**Always Keep Cuticura Preparations On Hand**

The Soap, because of its absolute purity and emollient properties, is unsurpassed for every-day use. Assisted by Cuticura Ointment it does much to keep the skin and scalp healthy. Cuticura Shaving Stick makes shaving easy for tender-faced men. Cuticura Talcum is the ideal toilet powder.

Sample Each Free by Mail. Address Canadian Depot: "Buckeye," Ltd., Montreal. Price, Soap 25c, Ointment 25c, and 50c, Talcum 25c. Cuticura Shaving Stick 25c.

Industrial Manitoba

Agriculture Has Now To Take Second Place To Manufacturing In Western Province

Agriculture now has to take second place to industrial manufacturing in Manitoba, according to figures of the Industrial Development Board. An estimate made by the Board places the output of manufactured goods in Manitoba this year at \$159,252,000, as compared with \$132,000,000 during 1927. The agricultural wealth produced in 1927 was placed at \$147,000,000.

"Flu" "Flu" "Flu" It Is Everywhere

DANGEROUS PNEUMONIA MAY FOLLOW UNLESS A GOOD RECOVERY IS MADE

With so much Grippe and Flu about, no one can afford to neglect even a simple cold. For a real protection against "Flu" many experienced nurses advocate the following simple treatment.

Put a saucepan containing one pint water on the stove; then add one-half teaspoonful of Catarrhazone, and bring to a boil. Bend over the steaming water; wrap a towel over your head so that it also covers the pan. Let the steam rise so you can inhale it. Breathe in the vapor deeply. The healing fumes of Catarrhazone will quickly disinfect your nose throat and lungs. Flu germs are destroyed.

You can prevent Grippe, Flu and Influenza by using Catarrhazone. It is healing, soothing, safe and efficient. To stop colds, sore throat, or Catarrh, nothing is more satisfactory than Catarrhazone. Even to sit in a room with Catarrhazone Vapor rising from a pan of boiling water is a wonderful protection to children and over-comes all sorts of winter coughs and colds. All druggists sell Catarrhazone, 50c. a bottle.

First American Forest Law

Was Written In Massachusetts Colony On March Twenty-Ninth, 1626

The Pennsylvania department of forests and waters at Harrisburgh, recently conducted an investigation revealing that the first American forest law was written in the New Plymouth Colony, in Massachusetts.

The original American forest law read as follows:

"Orders agreed on several times for the general good of the Colony:

"It was decreed by the Court held on the 29, of March Anno, 1626. That for the preventing of which inconveniences, as does, and may befall the plantation by the want of timber, that no man of what condition soever sell or transport any manner of works or frames, for houses, planks, boards, shipping, shalop, boats, canoes or what so ever may tend to the destruction of timber aforesaid."

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

Will Burn Ice

Burning out of ice on the St. Lawrence River will be attempted by Dr. Howard T. Barnes, of McGill University, with whom the government has made an agreement from the department of marine and fisheries, the purpose being to free Montreal harbor from the grip of winter earlier than usual and to prevent the flooding of the country between it and Sorel.

The latest wonder of agriculture, is a cabbage plant which produced six heads of cabbage in turn, one above the other.

FLU-GRIP VICKS VAPORUB**Teeth and Health**

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

WEIGHING OF FOOD

You have suffered the annoying experience of having stringy foods wedge between your teeth; and you wonder what can be done to remedy it.

Normally, teeth should be tight together with rounded contacts as when two marbles touch; but through tooth decay and from teeth "drifting" this contact is lost.

The food then "jams" between the teeth and is held there until released—with what results?

Obviously, decay is liable to be incited in this area.

Also this impacted food material presses upon the soft underlying tissues, until they become irritated and inflamed. Thus injured, they lose their "tone" and fall an easy prey to the microorganisms that caused diseases.

Then follows the destruction of this wedge shaped tissue between the teeth; a "pocket" is formed, which, becoming infected, results in the progressive destruction of the supporting structures of the teeth, which are then lost.

You see then, what grave damage can result from so simple a cause.

Now, the remedy. It is not the tooth-pick, which, through its indiscriminate use, may do further harm, and which at best provides but temporary relief.

But, where this "wedging" is first noticed, the insertion of a filling in one or both of the involved teeth to restore the contact, will clear up the trouble.

This may even necessitate the removal of a faulty filling already in place but far better this than to suffer the prolonged discomforts from "wedging" food, with its train of grave consequences, should it go unchecked.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

Must Keep Drama Clean

Bransby Williams, English Actor, Deplores Modern Tendency

"I am ashamed of the way in which the stage is being run in the United States, Canada and Great Britain," Bransby Williams, English actor, said in addressing the Brockville Rotary club, adding that, for the sake of the rising generations, the stage has got to be kept clean and the pictures "must be kept cleaner." In moving-picture theatres, he said, boys and girls are today reading titles that are despoiling the English language, and on the stage itself there appears to be no longer room for good, clean, beautiful plays, while the bookstores are full of questionable reading matter.

A pleasant medicine for children is Mother Gray's Worm Exterminator, and it is excellent for driving worms from the system.

Medical men will continue to walk in Bermuda. The House of Assembly has refused to make exceptions to a law prohibiting use of cars on the island.

Corns cause much suffering, but Holloway's Corn Remover offers a speedy, sure, and satisfactory relief.

An editorial typist has lost her job for sending this to a contributor: "The editor regrets that he is unable to make use of the enclosed owing to lack of space."

Saskatchewan mined 470,000 tons of coal during 1928, according to an announcement received from Ottawa. This is the same amount as was produced in 1927.

Minard's Liniment for Coughs and Colds.

SUNDAY SCHOOL LESSON

JANUARY 27

THE HOLY SPIRIT

Golden Text: "For as many as are led by the Spirit of God, these are sons of God."—Romans 8:14.

Lesson: Joel 2:28, 29; Luke 11:9-13; John 3:5-8; 14:16; 17:26; 15:26, 27; 16:7-15; Acts 2:1-21, 32, 33; Romans 8:1-17, 26, 27; 1 Corinthians 12:1-13; Ephesians 1:13, 14; 3:14, 21; 4:1-6, 30. Devotional Reading: John 11:25-31.

Explanations and Comments

What the Holy Spirit Will Do, John 16:7-11.—Jesus told His disciples that it was expedient for them, it was for their advantage, for their best interests, that he should leave them. How could it be best for them to lose the daily companionship of their Lord and Master? Jesus gives the answer: "For if I go not away, the Comforter will not come unto you; but if I go, I will send him unto you." The Greek verb from which the Greek noun Parakletis, Paraclete, is derived, means to call, to aid; the noun, therefore, stands for one who is called to another's aid, whether to comfort (comforter), to plead his cause (The Advocate), or to help in some other way (The Helper). The word Comforter used here for Parakletos, means One who strengthens, upholds, rather than One who consoles.

The Holy Spirit is (1) the continued life and presence of Christ Himself. While He was present with the disciples in the body, His humanity obscured in a measure His divinity. When the Holy Spirit took His place he revealed Christ to them, made plain all the spiritual truth of His teachings (verse 13). They knew Him better after He had left them.

(2) While Jesus was with them, they were weak men, unable to stand alone. After He went away and left them as witnesses to carry on His work, they became towers of strength, wonderful leaders of men, who continued to do all that He began both to do and to teach. (3) By leaving a few, Christ became the Companion of all. While He was on earth He was with a few men in a small land; now He is with all, everywhere, at all times. He is the universal Spiritual Presence.

"He to His own a Comforter shall send.

The promise of the Father, who shall dwell

His Spirit within them, and the law of faith,

Working through love, upon their hearts shall write

To guide them in all truth."—Milton.

"We have no outside, distant, occasional Saviour, as the disciples had long ago; but His Spirit, His other Self, to abide with us, in us, today, tomorrow, forever."—Maitland D. Babcock.

Use Minard's Liniment for the Flu.

Customer (doubtfully): "Is it a pedigree dog?"

Dealer: "Pedigree! Why, if this dog could talk he wouldn't speak to either of us!"

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

CHAPTER XII.—Continued.

Andy took the wounded bird from her hand. "Ow did it 'appen, Connie?" he asked tenderly.

Connie was as open and unaffected as the wild birds of the forest. She was as capable of hating as she was of loving. Her eyes were laughing eyes, and the soul that looked out of them a merry soul, but she had a temper, and under sufficient provocation her blue eyes could take on a dangerous glow.

She now turned like an enraged lioness on the foreigner. "He killed it with a stick!" she cried furiously. "You brute, you cowardly brute. . . ." In her rage her voice became incoherent. With hands clenched and with breath coming in short gasps, she moved nearer to the object of her hatred. In her hysterical anger her voice rose almost to a scream.

"You cur, if I were a man I'd—I'd lick you!"

The cry came to Donald's ears, and he was off up the trail like a deer.

"Go ahead, I'll follow," responded Gillis.

Andy looked down on the mother goldfinch as it lay in his hand. He felt the quick throbbing of its heart grow fainter and fainter. One wing was broken and its white breast was stained with blood. The bird's head drooped lower, and a film settled over its bright eyes. The beautiful wings stretched rigidly, and it gasped convulsively, sending a tiny stain of crimson from its mouth that felt warm on his palm.

Andy's face became colourless. His hand shook violently as he placed the dead bird tenderly on the ground. "Connie dear," he said, in a voice that trembled, "I ain't a whole man, but 'ere's where you see 'arf a man goin' into battle to give all he's got."

He removed his coat and threw it from him. Through a rage-mist Andy saw the grinning foreigner throw up his arms in an absurdly unscientific posture of defence. Like a mad cat, Andy launched himself

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes:—"Several years ago I was troubled with my heart and nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine, for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble."

Price 50c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1769

cold water of the creek and bathed his face with tender care.

She showed Donald and Gillis the nest with the motherless birds, doomed to die a premature death by this act of wanton cruelty, and pointed to the tiny bird on the ground, for whose untimely end Andy had taken a well deserved and summary vengeance. Connie choked as the lovely male bird flew to a stalk of goldenrod near its dead mate and sent out its throaty warble.

"Dear, dear, dearie," sang the goldfinch in a plaintive, questioning note.

Andy presented a pitiful figure with an eye closed, his lips swollen, his face bruised, but the indomitable spirit of him shone from his one bright orb.

"You darned little buzz-saw!" said Gillis tenderly.

Donald slapped his little friend on the back, his eyes shining with admiration.

CHAPTER XIII.

Renwick announced that Robert Rennie's daughter and a party of girl friends were to visit Summit Lake the following week, and carpenters were set to work erecting cottages for their accommodation.

A few days before her arrival Donald was both surprised and pleased to receive a cordial letter from her in which she said that she was looking forward with pleasure to the coming holiday, and that she would deeply appreciate anything he might do for the entertainment of her friends.

As always, her father spared no expense in providing for the comfort and pleasure of his daughter. That week a car containing a motorboat, canoes and six saddle-horses was run in on a side-track at the mill.

Connie learned of the coming event through Donald as she was watching with keen interest the unloading of the spirited animals.

"You will enjoy yourself next week, Connie," he said gaily. "Miss Rennie is coming with friends. We'll have rides, picnics and dancing."

A few minutes later Connie joined Andy, who sat on the steps of the kitchen door enjoying a breath of fresh air.

"Is Miss Rennie rich, Andy?"

"An 'ole barrel o' dough."

"Is—she beautiful?"

"I've 'eard so, Connie."

A short pause ensued while she searched the pockets of her overalls and produced several neatly folded papers. She extracted one, pressed it smooth, then passed it to Andy.

"Does Miss Rennie dress like that?"

SAVE THE VALUABLE
"POKER HANDS"

It was a photograph of an actress dressed for the street, taken from one of the magazines that Donald had given her.

"I think so, Connie."

"Oh! She must be wonderful, then!" said Connie earnestly.

She moved closer to Andy, unfolded another page, and spread it on her knee.

Andy bent his blond head close to the one of gold. A startled look crossed his features and his brows bobbed up and down. It was a full-page advertisement of ladies' lingerie. The highly coloured illustration of a lady, partially dressed, achieved its object of arresting the eye, while the remainder of the space was occupied by articles of apparel similar to those adorning the lady's graceful form.

Andy coughed. "Er—yes, Connie. Connie raised her eyebrows incredulously.

"All at one time?"

"Sure—sure," mumbled Andy.

Connie stared. "Why, there must be nearly a dozen pieces. How is this fastened?" she questioned as she

pointed with a slender brown finger to one of the engravings.

Andy took a quick glance. "Buttons,"

"And this?"

"Buttons," replied Andy, gripping the bowl of his pipe and sending out clouds of smoke.

"And this?"

"Strike me blind, what a 'ell of an 'ole," thought Andy.

"Buttons," he responded desperately without looking at the paper.

WINDOLITE

The Improved
Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Ski Championships for Banff

Top left, Kay Harrison, Queen of the Carnival. The inset proves that Banff Winter is not all shivers. Below, en-route to Lake Louise, pictures at the right.

Announcement that the Western Ski Championships of Canada would be held at Banff during the Carnival Week February 2-9 is greeted with enthusiasm in practically every corner of the continent. Skiing has always been a feature of the Carnival, but this season, world's champions will gather there and present an exhibition which in itself would be worth travelling a thousand miles to see.

The Banff Ski hill is undergoing improvements at the present time to allow for longer and more spectacular jumps and a cabin is being erected on the top of Stony Squaw Mountain by the Banff Ski Club which is also preparing several runs suitable for beginners as for experts. Last year a favourite cross country run was to Lake Louise, part of which was accomplished as automobile tow. That this is a

worthwhile run may be gathered from the photographs above.

But the skiing is only one side of the Carnival life. There are the dogs and the derby, the ice and the skating, the toboggans and sleighs, the dances and fancy dress balls, curling and hockey, a properly organized sports program and a general atmosphere of spontaneity, gaiety and fun. W. A. Brewster is chairman of the Carnival, George Hunter is secretary and the Queen—the Queen of Banff Winter Carnival February 1929—is Kay Harrison of Vancouver. Miss Harrison's might easily have been a crown of beauty and popularity, but it was also her prowess as an all-round sportswoman which gave her the title. Hers will be a very merry court and it will embrace all those whose pleasure takes them to Banff during the period of her sovereignty.

THE NEWSPAPERS PART

Frequently we are so closely associ-
ated with institutions or a commo-dity, that we do not appreciate their
worth. This applies in general to news-
papers. No city ever got very far with-
out the sincere co-operation of news-
papers. Yet no institution in a city
ever gets less thanks or receives more
criticism.Probably no other one thing is a
better index to a small town than its
weekly publications. Very often that
is about all the stranger has to go
by in making up his mind about a
community. If the newspaper that falls
into his hands is a bright looking sheet
full of news and has a prosperous air,
the stranger is certain to judge that
it was published in a live progressive
town.Those who read their weekly news-
papers and carelessly throw them
aside, overlook the fact that they are
not doing all for their town that they
can. If those newspapers instead of
being destroyed were placed in a wrap-
per and mailed from time to time to
friends and relatives at a distance, the
good that could be accomplished would
soon be reflected in the city's growth.Boards of trade are frequently
blamed for not getting out more boost
literature to be sent abroad. Those
who raise these complaints could doa great deal themselves by sending
out literature that comes into their
own hands in the form of local peri-
odicals. Rest assured there is no busi-
ness individual in a town more inter-
ested in the growth of his community
than is the editor or publisher, for as
the town grows his business grows.
—Exchange.SUCCESSFUL SEASON IN
SUGAR BEET INDUSTRYOver 100,000 bags of sugar have been
manufactured during the past season
in the plant of the Canadian Sugar
factories Limited at Raymond, accord-
ing to a recent announcement by the
manager, T. Geo. Wood. It is estimated
that the expenditure made yearly in
this industry in Alberta averages over
\$650,000, the factory employing during
its peak of production from 250 to 300
men. Approximately 37,000 tons of
beets were harvested and growers have
received an initial payment of \$7 per
ton which it is expected will be supple-
mented by further payments during
the winter months. A total price of
\$8.16 per ton was paid for beets deliv-
ered to the factory in 1927. During
the past season an average yield of 7.5
tons per acre was secured, the beets
having an average sugar content of
17.2 per cent.TOMB OF SOLOMON'S EGYPTIAN
WIFE HAS BEEN FOUNDLONDON, Jan. 23.—The Daily Mail
today prints Cairo despatches citing
the newspaper Al Mokattam as au-
thority for the story of the sensational
discovery in Jerusalem of the mummy
of the favorite wife of King Solomon,
an Egyptian who died under tragic
circumstances.The burial chamber just laid bare
is stated to exceed in magnificence the
famous one of King Tut-Ankh-Amen.
It is filled with objects of marvellous
beauty and great value, including a
golden coffin which revealed the body
wrapped in richest coverings set with
precious stones. The fingers bore sev-
eral rings and at the head was a crown
set with sapphires, emeralds and pearls.THREE GLASSES WATER
HELP CONSTIPATIONOne glass of water is not enough—
Take three glasses one hour before
breakfast. Much better results are
obtained by adding a teaspoon of
simple glyceridin, saline compound
(known as Adlerika) to each glass.Adlerika acts on BOTH upper and
lower bowel and removes old waste
matter you never thought was in your
system. Stops gas and sour stomach
in two minutes. Relieves constipation
in two hours. A. F. McKibbin.

CHERY, 362 Furby St., Winnipeg,
Manitoba.During 1928 between 5,600 and
5,700 Prince Edward Island foxes
have been shipped abroad, an in-
crease over the 4,260 shipped the
preceding year. These have been
handled without a single known
casualty. Since the middle of Oc-
tober foxes have been shipped to
Norway, Sweden, Scotland, Ger-
many, Czechoslovakia, Bavaria,
Finland, France, Holland, Switzer-
land and Japan.Forty-two years of service with
the Canadian Pacific Railway with-
out having broken any of the com-
pany's rules or otherwise earned a
mark against himself is the unique
record held by Arthur W. Savage,
engineer, who has just retired on
pension. Mr. Savage, who is well
known throughout the Eastern
Townships, fired the train that laid
the first steel on the line between
Sherbrooke and Parnham.The old English Yuletide Festival
held recently at the Empress Hotel
in Victoria, B.C., proved to be one
of the most popular events of last
year. Carols and yuletide music
were rendered, the ancient "Cheas-
ter Mysteries" staged, and Dickens'
"Mrs. Wardle's Christmas Party"
was produced. The festival cul-
minated in a ball at which some
seven hundred persons attended. It
is believed that plans are already
being made for a larger and better
celebration next year.

Western Canada in the Spotlight

The attention of people in all parts of Canada, and, in fact, of the world, will be directed to the prairie provinces of this Dominion during the next few months in a way and to an extent probably unprecedented in the history of any country, by reason of the applications to the Dominion Parliament for charters to build many hundreds of miles of railway in the northern portions of Manitoba, Saskatchewan and Alberta.

Both the Canadian Pacific and the Canadian National Railways are asking Parliament for power to enormously extend their lines into the north country, and both announce their eagerness to proceed with the work of construction with the least possible delay. There is the keenest kind of rivalry between these two giant systems for rights into certain sections of this territory, with the result that a battle royal will take place at Ottawa when Parliament assembles.

One thing emerges quite clearly from the situation that has developed with almost startling suddenness, and that is, that, despite all former statements and predictions to the contrary, the railway managements of Canada are now convinced of the enormous wealth of natural resources in the more northerly portions of Canada and of the success of the Hudson Bay Railway and Hudson Bay route to the markets of the old world.

There had long been a suspicion in the minds of many Western people that the former opposition in Montreal and other Eastern centres to the construction of the Hudson Bay Railway was based, not on their professed scepticism as to the feasibility of the route, but because of their belief that the route would prove to be an unqualified success, with all the upheaval which the opening of this short route from the heart of the prairies to the markets of the world would cause in existing transportation conditions, rates, and routing of traffic.

Examination of the plans of the railways, as thus far outlined, indicate a reversal of formerly held views that the people of Western Canada should be served by lines running east and west, with all the tremendous production of the prairies moving out either to the Atlantic or the Pacific seaboard, and all our imported products coming in through the same ports. Now, both of the great railway companies appear to be determined to connect up their east and west lines by short branches here and there and the construction of great north and south main lines, all stretching hundreds of miles north of existing settlement and heading towards tidewater in the north. A veritable railway revolution is in prospect.

This declaration of absolute confidence in the northern half of these prairie provinces, and in the Hudson Bay outlet, evidenced by the willingness of the biggest financial men in Canada interested in the C.P.R. to expend tens of millions of dollars in northern extensions, will attract the attention of the whole world and will constitute the greatest publicity this section of the Dominion has ever received.

Regardless of the decisions reached by Parliament as to division of the northern territory between the rival systems, and the respective zones to be allotted to each, the result will be to roll back the map of Canada hundreds of miles. The old reproach and weakness of Canada that it consisted of a narrow strip of more or less settled territory extending thousands of miles from the Atlantic to the Pacific along the Canada-United States boundary line, is to be removed. To the Dominion will be given great depth as well as great width, and what for centuries has been looked upon as barren wastes of extensive territory, but of no value, will become a storehouse of treasure, the development of which will add enormously to the population and wealth of the Dominion, providing new avenues of employment, and diversified employment at that, for the people of Canada.

Arsenic in Canada

All the white arsenic produced in Canada is obtained by treating the arsenical silver-cobalt-nickel ores of northern Ontario. Arsenical gold concentrates are shipped from British Columbia to the United States.

Canadian Cheese

The production of factory cheese in Canada in 1926 amounted to 171,731,631 pounds. The value was \$61,753,320.

Utilizing Coal Resources

The new Fuel Research Laboratories of the Department of Mines at Ottawa, were designed and the equipment selected with a view to carrying out investigations which would be in the interest of the development of the coal resources of the Dominion.

Snake bites kill more than \$1,000,000 worth of cattle in Texas each year.

Simple Precautions Against FLU Sore Throat — — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing-medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

Alberta's Peer's Estate

Estate Of Earl Of Egmont Estimated To Approximate One Million Dollars In Value

That the estate to which the Earl of Egmont, of Priddis, Alta., has fallen heir, will approximate one million dollars is an estimate made at Calgary with his assistance.

The bulk of the estate comprises Avon Castle, the family seat at Ringwood, Hants, and 1,300 acres surrounding it.

Some \$40,000 has been spent lately in improving the land and the residence, declared the new earl.

In addition, he says, there are investments in stocks and shares and in war bonds amounting to a large total.

A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

Discomfort after eating, gas pains in the intestinal tract, pains around the heart, sour risings in the throat called heartburn, are common symptoms of dyspepsia. It is a condition often neglected until it has done permanent harm, yet the treatment is simple. The great contributing cause to this trouble is thin blood. Good blood and plenty of it is required by the stomach to function properly. If the blood is thin the stomach becomes sluggish, food lies undigested, gas forms causing pains, often around the heart. Instead of getting nourishment from the blood the system gets poison. The proper treatment is to enrich the blood, and there is no other medicine can do this as promptly or as effectively as Dr. Williams' Pink Pills. The sole mission of these pills is to make new, rich, red blood, which reaches every organ and nerve in the body, and thus not only banishes indigestion and dyspepsia, but also all other troubles having their origin in weak, watery blood.

The splendid results following the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Lucy A. Cushing, a former resident of Kemp, N.S., but now living with her son at West Bethel, Me. Mrs. Cushing says:—"I have no hesitation in strongly recommending Dr. Williams' Pink Pills. For years I was a great sufferer from indigestion. Always after eating I suffered from pains in my stomach and other distressing symptoms that accompany this ailment. I tried different doctors while residing at my old home and also at West Bethel, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills. I did so and I must say that I am feeling very grateful ever since to the good friend who gave me the advice. I soon found the pills helping me and by the time I had taken nine or ten boxes I was completely restored to good health. Though I am now in my 76th year I am feeling as well and smart as I did at 35, and am enjoying life once more." You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Speakers At Dinner Of Canadian Society

U.S. and Canadian Senators Guests At Function In New York

The Canadian Society of New York helped to strengthen the North American entente cordiale by bringing together as their guests at their annual dinner two senators, one from the Canadian Upper Chamber, Hon. C. P. Beaubien, K.C., and the other from the United States House, Hon. Simeon D. Fess, of Ohio. The speakers dealt with the aspirations of the two countries.

Senator Fess frankly discussed the two chief issues now agitating the Congress, the Kellogg treaty and the new cruiser program, and he readily supported both. The United States, he declared, should not put any obstacle in the way of the effort to banish war.

Senator Beaubien reviewed the development of Canada in recent years and painted a glowing picture of the Dominion's future.

"Canada, with a vision quickening and widening, has remained sober-minded, fairly traditional, and, I think I can add, hardworking and still law-abiding and God-fearing," he said.

Hewitt—I suppose you joke writers are always looking for a funny thing."

Jewett—"Yes; glad to have met you."

The silencer for firearms was invented by Maxim in 1909.

Shows Canada's Loyalty

London Paper Expresses Appreciation Of Reverse To Penny Postage

The London Sunday Times in an editorial headed "Canada leads the way," welcomed the increased British immigrant quota as emphasizing the practical loyalty of Canadians to their British stock, but fears that the proper advantage may not be taken of it in Great Britain. The newspaper quotes further encouragement both of propaganda and finance. The Sunday Times also expresses appreciation of the penny postage and finds in it "a signal proof of Canada's strong imperial sentiments."

After urging Hon. Winston Churchill, chancellor of the exchequer, to follow Canada's example the Sunday Times advocates a common empire stamp which, it states, would have a real psychological value as a symbol of imperial unity.

Fresh Supplies In Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Kellogg Explains Treaty

The Paris pact for renunciation of war commits none of the signatories to it to go to war in defence of any country attacked in defiance of the treaty. Secretary of State, Frank B. Kellogg, informed the Senate committee on foreign relations during the recent hearings. He added that Canada made it plain that the Dominion would not be a party to the treaty unless that was understood.

Proves Columbus Was Spaniard

A document found in the archives of Pontevedra Parish, mentioned that place as having been the birthplace of Christopher Columbus. It thus bears out the claim that the discoverer of America was a Spaniard and not a native of Genoa, Italy. The document contained a description of the burial of Columbus.

LAXATIVE FOR BABY THAT "STAYS DOWN"

Baby's tiny system rebels against castor oil and strong purgatives; but here's a medicine that just suits him. And it does the work quickly and so gently that Baby doesn't feel it. Fletcher's Castoria is soothing cross, fretful babies and children to sleep and making the feverish, constipated, upset ones well and happy, in millions of homes today. Castoria is purely-vegetable, harmless and endorsed by the medical profession. Avoid imitations. The Chas. H. Fletcher signature marks genuine Castoria.

Frenchman Invented Eyclet

French celebrated recently the centenary of the birth of the metal eyclet. Francois-Jean-Guillaume Gobin-Daude was the inventor. The first application of the eyclet was to corsets and it gave that industry a great impetus. Eyclets later were put in shoes.

Awful Asthma Attacks Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

An acquaintance says the most undesirable place in the world to live is beyond one's income.

Minard's Liniment for the Grippe and Flu.

The palatial stables of the former German Kaiser have been converted into Berlin's first indoor tennis court.

For Colds —

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada

ASPIRIN

APPROVE NEW RURAL SCHOOL PLAN IN ALBERTA

Edmonton.—Approval of the Baker rural school plan, sponsored by the Alberta government, was voiced by the convention of the United Farmers of Alberta here. A vote, taken on the questions, favored approval of the Baker system by 203 to 161. According to the resolution the convention favored raising funds by grouping rural school areas in one district under a flat mill rate on assessed valuation.

Hon. Perrin E. Baker, minister of education in the Alberta government, was the most prominent figure in the discussion on the system which bears his name. In the midst of a debate he was summoned into the argument at the request of the farm delegates. After outlining his system, the minister of education answered queries on the matter until the program was halted. According to the projected system, the province would be divided into 20 divisions of 15 school districts each. Chairmen of the district boards to form a general board, which, with the minister of education, would supervise rural educational matters in Alberta. Selection, placing and payment of teachers under the Baker plan, would be handled by the general board.

In the discussion on the Baker idea "government by proxy" was quoted as a name for the proposed mode of rural educational supervision. It was claimed that, regarding single taxation areas, "none would stand for a blanket tax assessed by a bureau of the government."

In answering his critics, Mr. Baker denied the "bureaucracy" and "government by proxy" allegation, and stated that matters would be governed by appointed representatives of the ratepayers. He estimated that the increase in taxation, necessary to pay for the better supervision the new system would involve, would be covered by a three-quarter mill increase over the entire rural area. And he contended that the new plan would place experts in charge of the allocation and selection of teachers.

Farm Loan Board

Ottawa.—While no announcement has yet been made as to the personnel of the farm loan board which will act with Dr. J. D. McLean, former Premier of British Columbia, and recently appointed to the chairmanship of that body, the understanding in the capital is that Hon. E. C. Drury, former premier of Ontario and Beaudry Leman, president of the Banque Canadienne Nationale will be named.

Gigantic Wave Strikes River

New York.—Leonardo Fioroni, cook, was killed and several other members of the crew were injured by a gigantic wave that surged over the bow of the White Star Liner Majestic on the crossing completed when the ship docked here. The wave twisted steel bulkheads, wet the mail, ruined part of the cargo and necessitated removal of the 259 third class passengers to other quarters.

Gift For McGill University

Montreal.—A gift of \$5,000 has just been received by the McGill faculty of applied science from Walter W. Colpitts, of New York, to establish a graduate scholarship in civil engineering at the University in honor of Dr. John Densall Porter, emeritus professor of mining engineering. Mr. Colpitts graduated in 1899 from McGill faculty of applied science.

Again Heads Alberta Farmers

Edmonton.—Opposition to re-election of H. W. Wood as president of the U.F.A., was drowned in a vote which swept him into the first executive office for the fourteenth time. To a motion that he be "retired" as honorary president was added an amendment that he be made president. The amendment was passed by overwhelming vote.

Woman Leads Defence In Murder Trial

Praised For Plea in Old Bailey, But Failed to Receive Acquittal

London.—Miss Venetia Stephenson failed to secure acquittal at the central criminal court of the first man she had defended on a charge of murder, John Holmy Ward, aged 24. The jury without much delay returned a verdict the prisoner was guilty of the murder of his grandfather, a bookmaker, who was found with his skull fractured in Pimlico. But she received the warmest congratulations upon her case for the defence from Mr. Justice Humphries.

Miss Stephenson eschewed any attempt at rhetoric. "I am fighting for this young man's life and if words fail me it is because I appreciate the responsibility that rests on me," she said.

Miss Stephenson, however, used carefully chosen sentences when she passed to a review of the evidence, urging the manner in which the accused's grandfather met his death was consistent with the younger man defending himself from attack by the elder.

"I know you will not let sympathy for the dead over-ride justice for the living," were her last words. "This is the most solemn moment of my life and I leave this young man's life in your hands, with a prayer that God might lead you to the right conclusion."

His Lordship in summing up said it was difficult to accept the theory of self-defence.

Western Pioneer Dead

Major Augustus Mills Came to Winnipeg in 1870

Winnipeg.—A pioneer of early western Canadian military expeditions, Major Augustus Mills, 79, is dead at his home here. He came to Winnipeg in 1870 as a member of the first Lord Wolseley expedition, and later participated in the rebellion in 1885 as a captain in the Kildonan Infantry, which made a far western march in search of the Indian chief, Big Bear.

For a time he was a Dominion government land agent and then, in 1883, was appointed deputy protonotary at the Manitoba law courts, a position which he held at the time of his death.

Free Trip Offered Students

Paris.—A free trip from Montreal to Paris with expenses for a 15-day sojourn at his hotel to the student graduating with highest honors at Canadian Universities is to be offered by J. G. Mettraller, administrator of a Paris Hotel, if arrangements can be made with Canadian University heads. Mettraller is president of several hotels in France and Switzerland.

Air Pilot Killed

Toledo, Ohio.—Ted Hay, 30, pilot for Trans-continental Air Transport Company here, was killed when his plane crashed as he was attempting to land. Witnesses said one of the wings of Hay's ship collapsed as the aviator soared 75 feet above the field for his landing. The low altitude apparently prevented him from righting the plane.

Will Participate In Scheme

Regina, Manitoba will again participate in the British boy immigration scheme it has been announced by Hon. Albert Prefontaine, Minister of Agriculture for Manitoba who stated that a requisition would be forwarded to the British authorities to bring 50 youths to that province this spring.

Find Tanks of Amundsen Plane

Paris, France. The French builders of the Latham plane in which Roald Amundsen and his companions were lost while hunting the wrecked dirigible Italia, in the Arctic, announced that fuel tanks found floating off Norway exactly conformed to those used on the Amundsen plane. Five others were lost with the famous explorer.

Tennis Champion Engaged

Berkeley, Calif.—Engagement of Helen Wills, national women's tennis champion, to Frederick Shander Moody, Jr., San Francisco stock broker, has been announced.

RETIRE FROM BUSINESS

After 42 years as assistant manager of western business for the Canadian Bank of Commerce, C. W. Rowley has retired from business. He is recognized as one of the leading bankers of Canada, and is well known in the west.

Railroad Wreck Was Caused by Drunkenness

Romanian Train Crew Responsible For Death of Fourteen Persons

Turnasceverina, Roumania.—Railroad inspectors said that drunkenness on the part of the engineer and crew of the Bucharest-Temesvare express cost the lives of 14 persons. In addition to the fatalities about two score passengers were injured at Pruniscourt, near here, when the express crashed into a local train which had been derailed.

The express was plunging along at 55 miles an hour in the dead of night when the crash occurred. The engineer of the express, which was heavily laden, was apparently blind to all signals. In their excitement over the derailed local train station officials apparently forgot about the onrushing Bucharest express, which plunged into the passenger coaches of the local train like a catapult.

Children Victims of Ranch Fire

Winnipeg.—Two young children, one six months old and the other two years, were burned to death when fire destroyed a ranch home near Arden, Manitoba, south of here.

Great Increase Shown In Canadian Trade

Advance of Nearly 235,000,000 During Last Nine Months

Ottawa.—Canada's total trade advanced nearly \$235,000,000 during the last nine months of 1928. The total of \$2,007,890,158 compares with \$1,773,092,834 for the corresponding period in 1927.

Figures were made available at the department of national revenue. Domestic exports were valued at \$1,071,647,164, an increase of \$121,542,797 over the comparative figures of \$950,104,367 in the previous year. Wheat exports alone moved upward more than \$81,000,000, while newsprint and automobiles were substantially heavier.

Will Sail For England

New Earl of Egmont to Leave About 2nd of February

Calgary.—The new Earl of Egmont, Frederick Joseph Trevelyan Percival, who for the past thirty years has been ranching in the Calgary district and who recently fell heir to a big estate in Great Britain, will leave about the end of February for England.

He will be accompanied by his fourteen-year-old son and heir, the Hon. Frederick George Moore Percival, and Mr. and Mrs. Harry Trimmer, of Priddis, who have been friends of the new earl for many years.

Increase In Dairy Products

Fredericton, N.B.—The value of cheese, dairy and creamery butter in Canada during 1928 will show an increase of more than \$11,360,000 over the preceding year, J. F. Singleton, chief of the dairy markets division of the federal department of agriculture, told delegates to the New Brunswick Dairymen's convention in session here.

Salary Revision For Mail Clerks

Ottawa.—New classification and salary revision for mail clerks throughout the Dominion is considered probable by J. P. O'Farrell, of Quebec, president of the Dominion Railway Mail Clerks' Association. Mr. O'Farrell expressed himself thus after appearing before the Civil Service Commission with proposals along these lines.

CANDIDATE FOR THRONE

Count Folke Bernadotte, of Sweden, shown above, with his bride, formerly Miss Estelle Manville, of Pleasantville, N.Y., is one of the two foremost candidates for the throne of the United Baltic Kingdom, which it is proposed to form by merging Estonia, Latvia and Lithuania.

GERMAN PLAN FOR NEW CRUISER IS PUBLISHED

Berlin.—Publication by the London Review of Reviews of the text of a secret memorandum in which General Groener, German minister of defence, defended the necessity for the construction of a new battle cruiser has caused considerable consternation in government circles here.

As the memorandum was known only to cabinet members and a restricted number of persons official quarters are at a loss to explain how the "leakage" took place and an investigation has been ordered.

It is considered in Berlin that there is no doubt the London publication was from the original text and the indignation of the press is increased because the memorandum was withheld even from members of the Reichstag, who are determined to interrogate the government on the "scandal."

London.—Wickham Steed, editor of the Review of Reviews, said that the Groener memorandum he had published is "perfectly authentic and was not stolen."

"It reached me in an ordinary way through a channel that I trust and I satisfied myself as to its authenticity. They can make all the investigations they like as far as I am concerned."

Discussed Problems Of Egg Marketing

Canadian Producers' Association To Take Matter Up With Government

Toronto.—Egg marketing problems were discussed at the annual convention of the Canadian Producers' Association here. In view of the unprofitable situation which has confronted the dealers on account of surplus supply it was decided that a committee be named to take the matter up with the Dominion government. W. S. Cameron, Toronto, president of the association, suggested that the committee be representative of dealers, exporters and producers.

Alfred McCann, of Cheltenham, Ont., urged that advertising calculated to insure the consumption of eggs should be undertaken by the government.

Mr. Cameron in his presidential address, stated that the season had been a profitable one for the egg producers but on the average it had been unprofitable for the dealers. Consumption per capita in Canada had risen from 16.96 dozen in 1921 to 29.67 in 1927, and he expected the 1928 figures to show more than 30 dozen per capita.

To Aid Paraguay Farmers

Asuncion, Paraguay.—The Paraguay government decided to set aside 25,000,000 pesos credits to farmers who are unable to harvest their grain because of the absence of farm hands in the army mobilized recently in the dispute with Bolivia. The government also is trying to demobilize the farmers first and as quickly as possible.

Ask Customs Rebate

Ottawa.—The government is being asked by the British Columbia Sugar Refining Company to include in the forthcoming estimates the sum of \$36,824.88 with interest, being the balance of \$59,358.83 claimed to have been overpaid by the company in custom duties.

Hundreds Killed By Earthquake

Peking, China.—Hundreds of Chinese were killed in an earthquake in the Northwest part of Shansi province, dispatches published here said. The earthquake occurred near the Mongolian border in a section suffering from a famine.

Fear Revolution

New Orleans, La. Isaac Lehman, representative of a New York cotton goods manufacturer, arrived here with a report that United States citizens and other foreigners were fleeing Spanish Honduras in expectation of a revolution.
